Application No. Applicant(s) Bozeun

Office Action Summary	01/88/630	Bozennaya
	Examiner / 1 th gov	BOZELM Zyer Group Art Unit 1724
The MAILING DATE of this communication appear	rs on the cover short to	1/29
Period for Reply	.o on the cover sneet ben	leath the correspondence address—
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO OF THIS COMMUNICATION.	O EXPIRE 3	MONTH(S) FROM THE MAILING DATE
 Extensions of time may be available under the provisions of 37 CFR 1. from the mailing date of this communication. If the period for reply specified above is less than thirty (30) days, a reply in the period for reply is specified above, such period shall, by default, Failure to reply within the set or extended period for reply will, by statute 	ply within the statutory minimum	of thirty (30) days will be considered time.
Status		
☐ Responsive to communication(s) filed on ☐ This action is FINAL .		
 Since this application is in condition for allowance except for accordance with the practice under Ex parte Quayle, 1935 	or formal matters, prosecu C.D. 1 1; 453 O.G. 213.	tion as to the merits is closed in
Disposition of Claims		
✓ Claim(s) 1-29 Of the above claim(s) Nene ✓ Claim(s) 29		
Of the above claim(s)	is/are pending in the application.	
Claim(s) 29 Claim(s) 1-7 and 1/-28 Claim(s) 8-10		is/are withdrawn from consideration.
		is/are allowed.
☐ Claim(s)		_ is/are rejected.
☐ Claim(s)		- is/are objected to.
☐ Claim(s)		 are subject to restriction or election requirement.
☐ See the attached Notice of Draftsperson's Patent Drawing R	Review PTO-040	
The proposed drawing correction, filed on	io 🗆	
Is/are objected	to by the Examiner	approved.
The specification is objected to by the Examiner.	,	
The oath or declaration is objected to by the Examiner.

U. S. Patent and Trademark Office PTO-326 (Rev. 9-97)

Part of Paper No._

Application/Control Number: 09/841,650

Art Unit: 1724

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-7, 13, 15-20, 22 and 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Tietz (US 3218785).

Tietz ('785) discloses a filter cap assembly having two portion of a housing connected via bayonet connection with tabs 84 being inserted into female coupling 32.

Claims 1, 3-7, 13, 15-20, 22 and 23-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Terhune (US 5,045,192).

Terhune ('192) discloses a filter assembly which is plastic being mounted to a plastic base (14) via a bayonet connection.

Claims 1, 3-6, 11-13, 15-20, 22 and 23-28 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 231862.

EP ('862) includes a filter unit 14 made of plastic being mounted to a plastic head (12). There are O-rings 66 to effect the seal of the coupling.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Art Unit: 1724

Claim2, 14 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Terhune ('192) as applied to claims 1, 13 and 19 respective above, and further in view of Mansfield (US 3760951).

Mansfield teaches the mounting of plastic filter cartridge 12 to a metal spigot bushing (18) via a bayonet connection. It is taught in Mansfield that the male - female portions are reversible and that the male portion may be plastic or metal (col. 3, lines 25+). To so modify the Terhune bayonet coupling would have been obvious to one of ordinary skill based on the teaching of equivalence in Mansfield.

Claims 8-10 and 290 are not rejected over the art of record.

Any inquiry concerning this communication should be directed to Thomas Lithgow at telephone number 703-0173.
